Now your Wright Express Cards Can Be Used at Esso Locations throughout Canada

Wright Express Corporation (NYSE: WXS), a leading provider of payment processing and information management services to the U.S. commercial and government fleet industry, announced that Wright Express customers, including Wright Express co-brand and affinity card customers, can use their Wright Express Fleet Card at all Imperial Oil Limited's Esso branded locations throughout Canada.

Esso, the largest network of service stations in Canada with about 2,100 locations, joins the more than 180,000 retail fuel and vehicle maintenance locations in the Wright Express network. "This agreement represents a significant step in our plan to meet the needs of fleet customers who need to purchase fuel in Canada and have access to detailed level III data," said Michael Dubyak, president and chief executive officer of Wright Express. "Esso is one of the largest, most popular fuel retailers in Canada. Drivers and fleets want options of where they can fuel, and Esso has the quality and locations that drivers want."

HOW IT WORKS

Q. Will I need new cards or Driver Id's?

You will not need to get new cards or Driver IDs - your current cards and Driver IDs will work as they do at U.S. sites.

Q. Will there be any charge?

Each transaction will be charged a currency conversion fee of 1% of the total transaction value. The fee is included in the transaction cost.

Q. How will these transactions appear in my reporting?

The Canadian dollars and litres will be converted to U.S. dollars and gallons before they are posted to your account. You will be able to view these transactions via **WEXOnline**[®], **WEXLink**[™] and your printed Vehicle Analysis Report.

Q. What exchange rate will be used and where can I find it?

The exchange rate for each transaction will be the rate in effect at Wright Express on the day the transaction posts to your account. You will be able to view the exchange rate used at the transaction level on **WEXOnline**.

Q. Will my Authorization Controls and Purchase Alerts still work?

Yes they will continue to work as they do today.

Q. Where can I find diesel sites?

Imperial has an online site directory that allows you to search by location and amenity - including diesel fuel at <http://map.essostations.ca>.

Q. My fleet is tax exempt - will these transactions be exempt?

Taxes for Canadian transactions will NOT be exempted or reported at this time.
